EDUCATION

SRM Institute Of Science and Technology
Bachelor of Technology, Computer Science (CGPA: 9.5)

Tamil Nadu, India
May. 2023 – May 2027

EXPERIENCE

Machine Learning Research Intern
IIIT Allahabad

May 2025 – July 2025
Uttar Pradesh, India

- Developed a multimodal deep learning model using XLM-RoBERTa and EfficientNet-B3 for text and image analysis
- Optimised training using Automatic Mixed Precision (AMP) and built an end-to-end pipeline for preprocessing, training, and evaluation
- Applied concatenation and attention-based fusion on the FakeDdit Dataset for 6-way classification

SDE Developer Intern
iStudio

Aug. 2025 – October. 2025
Bangalore, India

- Developed a responsive frontend using React.js and Tailwind CSS for a modern, scalable UI
- Implemented user authentication (login system) and a dynamic dashboard interface for personalised user experience
- Integrated REST APIs for real-time data rendering and seamless user interactions

PROJECTS

IPL Insights | *React.js, Node.js, WebSockets, REST APIs, PostgreSQL*

Jan. 2026

- Developed a real-time sports analytics web application using React.js and Node.js to visualise live match data and player statistics
- Integrated live cricket APIs and WebSockets for real-time updates and dynamic data rendering
- Implemented interactive dashboards with charts and performance metrics, enabling team and player comparisons

Smart Price Comparision | *FastAPI, MongoDB, Web Scraping, REST APIs,*

Feb 2026

- Built a full-stack application using FastAPI and MongoDB to compare product prices across multiple e-commerce platforms
- Implemented web scraping and data extraction pipelines using BeautifulSoup/Playwright with efficient parsing and normalization
- Designed RESTful APIs for product search, price aggregation, and data retrieval with optimized query handling

Resume Gap Analyzer | *Python, NLP, spaCy, Scikit-learn, Regex*

March 2026

- Developed an NLP pipeline using spaCy for skill extraction from resumes and job descriptions
- Applied TF-IDF/embeddings with cosine similarity for skill matching and gap analysis
- Implemented preprocessing (tokenisation, lemmatization, normalization) to improve model performance

CERTIFICATIONS

Introduction to Machine Learning

NPTEL

Data Base Management System

NPTEL

Gen AI Practitioner

AWS

TECHNICAL SKILLS

Languages: Python, C, C++, SQL (PostgreSQL), JavaScript HTML/CSS

Frameworks: React.js, Node.js, FastAPI, Flask, Tailwind CSS, REST APIs

Developer Tools: GitHub, VS Code, Kaggle

Libraries: Scikit-learn, TensorFlow, Matplotlib, PyTorch, pandas, NumPy

Core Skills: DSA, System Design, OOPs, DBMS, Operating Systems, Computer Networks, Machine Learning
